

TOMMASO DE SANTO

EDUCATION	Department of Economics, New York University <i>Ph.D. in Economics</i> • Advisors: Sharon Traiberman, Guido Menzio • Fields: Macroeconomics, Spatial, Housing Collegio Carlo Alberto <i>M.A. in Economics (Allievi Program)</i> University of Turin <i>M.Sc. in Economics</i> 110/110, <i>summa cum laude</i> University of Trento <i>B.A. in Economics</i> 110/110, <i>summa cum laude</i>	New York, United States 2021 - 2027 (<i>expected</i>) Turin, Italy 2018-2020 Turin, Italy 2018-2020 Trento, Italy 2015-2018
WORK IN PROGRESS	1. Fertility, Housing, and Location Decisions • Applied for restricted PSID data, IRB processed, DUA pending • Conducted causal inference using event-studies at childbirth showing parents upsizing housing, moving to cheaper, lower-wage areas. • Developed a quantitative spatial model with endogenous fertility and tenure choice. 2. Consumption Sorting and Inequality (with Saverio Spinella) • Used large scale dataset with store level prices and shopping behaviour (Nielsen-Kilts) • Built a spatial model of search in product markets with non-homothetic preferences and endogenous firm and household location • Used the model to study policies reducing inequality and the cost of living 3. Frictional rental markets and inequality • Used microdata from ACS to document intergenerational and geographical differences in rent • Young and recently mobile renters pay higher rents, especially in dense, inelastic housing markets • Developed a parsimonious model of rental search that rationalizes these patterns. • Studied heterogeneous impact across generations of policies that expand housing supply	
WORK EXPERIENCE	European Central Bank <i>Trainee - Directorate General Statistics</i> • Improved tools and developed scripts for the computation of Euro Area Financial Accounts • Automated revision assessments in a complex multi-source statistical system • Represented the team in transition to new Python and R based IT system	Frankfurt, Germany 2020-2021
TEACHING EXPERIENCE	• Teaching Assistant – Introduction to Econometrics – Intermediate Macroeconomics – International Economics	Spring 2025, Fall 2025 Fall 2022, Fall 2024 Spring 2023, Fall 2023, Spring 2023
AWARDS	• Unicredit Marco Fanno Scholarship • NYU MacCracken Fellowship • Carlo Alberto Allievi Honors Program • University of Trento Honors Program	2021 2021-2027 2018-2020 2015-2018
SKILLS	Languages: Italian, English Programming: Matlab, Stata, R, Python
